

## 達友科技-- Forcepoint 產品技術通報

### Forcepoint 網址分類庫新增 AI and ML 有關網址分類

Forcepoint 網址分類庫系統於 2023 年 11 月新增以下 4 個 AI & ML 類別。  
新增的這 4 個類別預設政策為 Permit，客戶可視需求修改存取規則。為了安全起見，請用戶點選每個 Category Filter 確認 Information Technology 下的這 4 個新類別都屬於 Permit，或者依據用戶所屬公司的需求調整存取政策。

Below is a list of new categories with short definitions:

Category Name	Description
Other AI ML Applications	提供與人工智慧和機器學習相關的工具或服務的網站。 包括使用人工智慧託管具有個人生產力或商業目的的應用程式網站，但通常無法產生新內容。
Generative AI – Multimedia	專門提供機器生成的多媒體內容（例如圖像、視訊或音訊）的網站。包括提供與使用能夠產生新內容的 AI 的文字轉語音、影片、音樂、聲音或圖像編輯應用程式相關的資訊、工具或服務的網站。
Generative AI - Conversation	專門提供機器生成的對話內容以提供一般資訊、使用者協助或娛樂的網站。包括託管的虛擬代理人、機器人和特定領域對話應用程式的網站，這些應用程式使用人工智慧並能夠生成式新的內容。

Generative AI - Text & Code	使用 AI 提供機器生成文字和廣泛領域應用（包括程式碼和翻譯）並產生新內容的網站。包括提供根據使用者提示和互動提出建議、編輯、評論或建立摘要的工具或服務的網站。
--------------------------------	--

新增的相關網址歸類將於 2023 年 11 月 17 日（五）生效。

## Title

Category for AI Websites like ChatGPT, OpenAI

## Article Number

000041872

## Summary

### Information

Forcepoint URL Database contains the industry's most accurate and comprehensive classification of URLs. In November, the existing set will be enhanced by adding new categories relating to Artificial Intelligence (AI) and Machine-Learning (ML).

Four new sub-categories will be added within the **Information Technology** parent category for easy and fine-grained management.

The URL Database update will be separated into two stages. In the first stage, you will see the categories appear, which will give you the ability to modify the policy rules for these new categories, second stage the URL database will update these categories with the relevant URLs, refer to the dates and descriptions below for more information.

**Note** by default these new categories will be permitted

Date	Product	What is happening
<b>Stage 1</b>		
November 2, 2023	Forcepoint Web Security Cloud	Categories will appear
November 7, 2023	Forcepoint Web Security Hybrid, On-Premise, and Forcepoint DLP	Categories will appear
<b>Stage 2</b>		
November 17, 2023	Forcepoint Web Security Cloud, Forcepoint Web Security Hybrid, On-Premise, and Forcepoint DLP	URL database will update with all the relevant URLs for the new categories
December/January	Forcepoint ONE	Categories will appear

Below is a list of new categories with short definitions:

Category Name	Description
Other AI ML Applications	Sites that provide tools or services related to artificial intelligence and machine learning. Includes sites hosting applications with personal productivity or business purposes using AI but not typically capable of generating new content.
Generative AI – Multimedia	Sites that specialize in machine-generated multimedia content such as images, videos, or audio. Includes sites that provide information, tools, or services related to text-to-speech, video, music, sound, or image editing applications using AI with the ability to generate new content.

Did you find this article helpful?

Generative AI - Conversation	Sites that specialize in machine-generated conversational content for the purpose of general information, user assistance, or entertainment. Includes sites hosting virtual agents and narrow domain conversational applications using AI with the ability to generate new content.
Generative AI - Text & Code	Sites that provide machine-generated text with broad domain applications (including code and translation) using AI and generating new content. Includes sites that provide tools or services that make suggestions, edits, reviews or create summaries based on user prompts and interactions.

Below is a table of some sample URLs and the new category they will fall into:

URL	Current Classification	New Classification
<a href="http://jasper.ai/">http://jasper.ai/</a> ( <a href="http://jasper.ai/">http://jasper.ai/</a> )	Web Infrastructure	Generative AI - Text & Code
<a href="http://deepl.com/write">http://deepl.com/write</a> ( <a href="http://deepl.com/write">http://deepl.com/write</a> )	Reference Materials	Generative AI - Text & Code
<a href="http://browse.ai/">http://browse.ai/</a> ( <a href="http://browse.ai/">http://browse.ai/</a> )	Hosted Business Applications	Generative AI - Text & Code
<a href="http://formulabot.com/">http://formulabot.com/</a> ( <a href="http://formulabot.com/">http://formulabot.com/</a> )	Information Technology	Generative AI - Text & Code
<a href="http://bard.google.com/">http://bard.google.com/</a> ( <a href="http://bard.google.com/">http://bard.google.com/</a> )	Information Technology	Generative AI - Text & Code
<a href="http://chat.openai.com/">http://chat.openai.com/</a> ( <a href="http://chat.openai.com/">http://chat.openai.com/</a> )	Information Technology	Generative AI - Text & Code
<a href="http://open-assistant.io/">http://open-assistant.io/</a> ( <a href="http://open-assistant.io/">http://open-assistant.io/</a> )	Information Technology	Generative AI - Conversation
<a href="http://poe.com/">http://poe.com/</a> ( <a href="http://poe.com/">http://poe.com/</a> )	Information Technology	Generative AI - Conversation
<a href="https://glasgowgpt.com/">https://glasgowgpt.com/</a> ( <a href="https://glasgowgpt.com/">https://glasgowgpt.com/</a> )	Information Technology	Generative AI - Conversation
<a href="http://writesonic.com/chat">http://writesonic.com/chat</a> ( <a href="http://writesonic.com/chat">http://writesonic.com/chat</a> )	Information Technology	Generative AI - Conversation
<a href="http://synthesia.io/">http://synthesia.io/</a> ( <a href="http://synthesia.io/">http://synthesia.io/</a> )	Information Technology	Generative AI - Multimedia
<a href="http://beautiful.ai/">http://beautiful.ai/</a> ( <a href="http://beautiful.ai/">http://beautiful.ai/</a> )	Information Technology	Generative AI - Multimedia
<a href="http://altered.ai/">http://altered.ai/</a> ( <a href="http://altered.ai/">http://altered.ai/</a> )	Information Technology	Generative AI - Multimedia
<a href="http://ai.google/">http://ai.google/</a> ( <a href="http://ai.google/">http://ai.google/</a> )	Information Technology	Other AI ML Applications
<a href="http://hippocraticai.com/">http://hippocraticai.com/</a> ( <a href="http://hippocraticai.com/">http://hippocraticai.com/</a> )	Information Technology	Other AI ML Applications
<a href="http://remodeled.ai/">http://remodeled.ai/</a> ( <a href="http://remodeled.ai/">http://remodeled.ai/</a> )	Human Interests	Other AI ML Applications

To modify the policy refer to the below steps:

#### Cloud

1. Sign in to the Forcepoint Cloud Security Gateway portal
2. Navigate to **Web > Policies > Select a Policy > Web Categories**
3. Find the **Information Technology** category and expand to expose the subcategories
4. Select the newly created category and modify the action on the right-hand side.
5. Click Save

**Note** Repeat steps 2-5 for each policy

For further information on each of the actions refer to the documentation Policy enforcement actions ([https://www.websense.com/content/support/library/web/hosted/admin\\_guide/dispositions.aspx](https://www.websense.com/content/support/library/web/hosted/admin_guide/dispositions.aspx))

#### Web Security On-Premise/Hybrid

1. Sign in to the Forcepoint Security Manager
2. Navigate to **Main > Policy Management > Policies > Select a Policy**
3. Find the **Information Technology** category and expand to expose the subcategories
4. Select the newly created category and modify the action on the right-hand side.
5. Then click **OK**, and modify any additional policies
6. When the last policy is updated click **OK** then **Save and Deploy**
7. If using Hybrid you can push the policy manually or wait 15 minutes (default time) for the policy to be sent automatically.
  - To send manually, navigate to **Settings > Hybrid Configuration > Scheduling > Click Send** under the header **Send Policy Data Now**

For further information on each of the actions refer to the documentation Actions ([https://www.websense.com/content/support/library/web/v85/web\\_help/filtering\\_actions.aspx](https://www.websense.com/content/support/library/web/v85/web_help/filtering_actions.aspx))

**Important** If you are seeing Unpurchased next to the new category, ensure all the Filtering Services are on the same URL Database version. Refer to New Categories Showing as Unpurchased (<https://support.forcepoint.com/s/article/New-categories-showing-as-unpurchased>) for steps on how to verify the URL database version.

In the meantime, custom categories can be created and the filtering action can then be defined within the policy. Refer to the below documentation on how to create a custom category

Cloud: Custom Categories tab ([https://www.websense.com/content/support/library/web/hosted/admin\\_guide/wd\\_custom\\_cat\\_policy.aspx](https://www.websense.com/content/support/library/web/hosted/admin_guide/wd_custom_cat_policy.aspx))

On-Premise: Creating a custom category ([https://www.websense.com/content/support/library/web/v85/web\\_help/add\\_cat\\_explain.aspx](https://www.websense.com/content/support/library/web/v85/web_help/add_cat_explain.aspx))

Keywords: chatbot; AI; artificial intelligence; ML; machine learning; chatgpt; FR202303-15939
